

XENOFON LIANOS

Marketing Operations & Automation Specialist

📍 Palaio Faliro, Athens, Greece 📞 00306947002043 ✉️ xenlian@yahoo.gr 🏠 github.com/XenLian78

Professional Summary

A strategic and tech-fluent Marketing Operations professional specializing in bridging the gap between digital growth and workflow automation. Proven track record in optimizing e-commerce infrastructure, building custom digital tools, and engineering low-code workflows (n8n) that eliminate operational friction and drive business efficiency. Expert at leveraging AI-assisted development (Vibe Coding), UX best practices, and front-end technologies for data-driven solutions.

Technical Stack & Skills

- AI & Automation: n8n Workflows, Advanced Prompt Engineering, AI Agent Architectures, OpenAI API integration.
- Web Development & UX: HTML5, CSS3, JavaScript (ES6+), UX/UI Design (Google Certified), Git/GitHub, XML/SVG Layouts.
- E-commerce & CMS: Advanced Shopify Operations (Tagging, URL Structures & Filter Optimization), WordPress.
- Growth Marketing: Technical SEO, Google Analytics 4, Semrush, Meta Ads Manager, Automated Email Flows.

Featured Projects & Applications

GB Barista Checklist App | Internal Enterprise Automation Tool

[View Code](#)[View App](#)

- Engineered a functional layout and digital reporting system tailored for coffee trainers and technical auditors during retail site visits.
- Automated the entire post-inspection workflow: saves hours of manual reporting, instantly generates and emails branded, digitally signed PDF reports to clients, and populates a central operations database for audit tracking.

SocialForge AI | AI-Powered Content Automation Node

[View Code](#)[View Demo](#)

- Developed an automated framework combining prompt engineering and API logic to synthesize production-ready marketing assets.
- Built dynamic templates that streamline content generation, reducing creative ideation bottlenecks for multi-channel campaigns.

Personal Website - Portfolio

[View Code](#)[View Site](#)

- Designed and deployed a minimalist, dark-mode professional portfolio using semantic HTML5, custom CSS3 variables, and vanilla JS.
- Configured continuous deployment pipeline via GitHub Pages to showcase live applications and repository states.

Professional Experience

Assistant Marketing & Communications Manager

Laoudis Foods SA & G&B Experts | Athens, Greece | May 2019 – Present

- Marketing Operations & SEO: Directed digital platform operations for laoudis.gr (Shopify) and gnbexperts.gr (WordPress), driving a 20% surge in organic web traffic and securing top-tier Google Search rankings via advanced content architecture.
- Technical Optimization: Diagnosed and resolved layout anomalies and complex e-commerce filtering mismatches (resolving tag and URL structure errors) to guarantee flawless UI/UX continuity and eliminate drops in conversion rates.
- Business Value via Automation: Architected the GB Barista Checklist automation ecosystem, elevating corporate prestige through instant digital delivery while building the company's first structured B2B site-visit database.
- Multi-Channel Growth: Executed targeted campaign strategies, accelerating brand social media follower growth by 50%.

Operations and Marketing Manager

Grammatikos Katsouris | Athens, Greece | Oct 2016 – Aug 2018

- E-commerce Infrastructure: Governed end-to-end multi-channel operations, catalog syndication, and product mapping across independent web properties, Amazon, and eBay marketplaces.
- Retention Automation: Implemented behavior-triggered email flows and cart-abandonment recovery sequences, successfully re-engaging cold databases and maximizing customer lifetime value (LTV).
